of tremendous strength  
**NAZIMOVA**

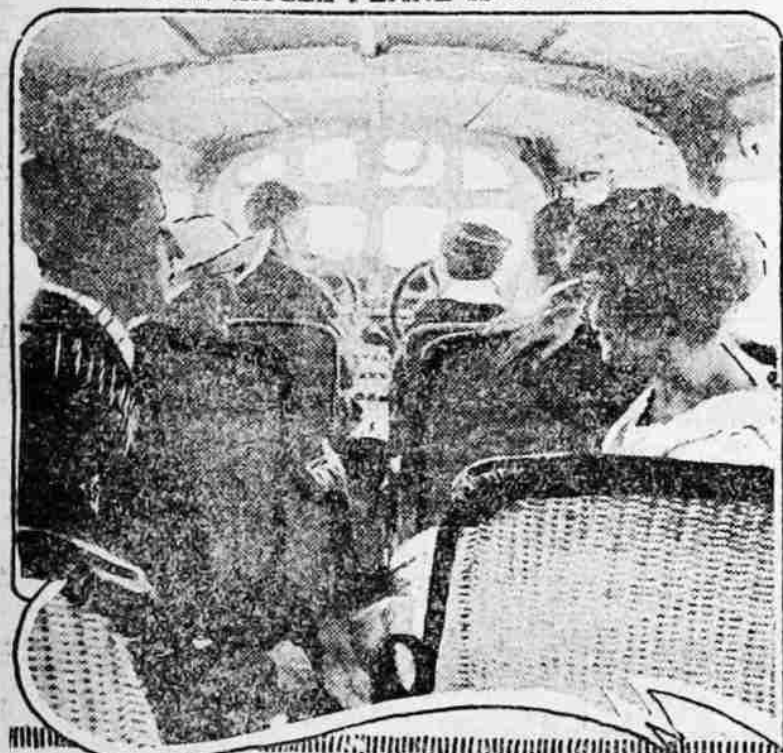

As Sigrid the Dancer in  
"Stronger than Death"

Nazimova, as the London and Paris dancer, again reveals her expertness as an interpreter of the human emotions, and displays the skill in terpsichore that is one of her outstanding gifts, in an absorbing love story, tense with the undercurrents of momentous events, and colorful its backgrounds.

## NEW EAGLE PLANE IS A "BIRD"

"Eagle" is a very appropriate name for the new bi-motored Curtiss aerial liner. The machine is a "bird" when it comes to style and comfort. It'll make 125 miles an hour, is 56 feet 7 inches long, 12 feet 11 inches high, has a wing span of 64 feet 4 inches, and is equipped with two motors. Above picture shows the luxurious interior of the plane—plenty of room and real comfort.

## ACME QUALITY VARNO-LAC

More shabby, surface worn furniture is discarded each year than is destroyed by fire.

You insure your furniture against fire. Is it insured against year? A good piece of furniture will last a lifetime if its surface is properly protected.

Once a desk, chair or table loses its newness—begins to look shabby—it travels a fast road to the junk heap. Renew its surface with Acme Quality Varno-Lac and you renew its life. You've saved the price of a desk, chair or table, and enhanced the appearance of your home. By saving the surface you save all.

Acme Quality Varno-Lac stains and varnishes at one operation producing handsome imitations of expensive hardwoods. Good for floors, furniture and woodwork.

Begin in the business, we can probably give you some helpful hints about painting.

## WORLD'S MARKETS

NEW YORK, March 30.—Stocks were under the influence of yesterday's money flurry at the opening of today's session, irregular price changes reflecting the more cautious dealings of traders. Except for several of the more prominent steels, equipments and oils, which made initial gains of one to three points, the market was disposed to react. A firmer tone developed within the first half hour, however, Crucible Steel, General Motors and Atlantic Gulf displaying pronounced strength.

Business during the morning was the lightest in many weeks, dealings continued to be governed by money considerations and lower exchange rates. On the early rally Crucible rose nine points, General Motors 5½ and Atlantic Gulf 5. The market soon reversed itself, however, Crucible falling back 6 points and other leaders one to three, but recovered when buying of oils and equipments was renewed. Stutz rose 16 points to the new high of \$35 and Motor Accessories were of 3½ and recent pool activity in other specialties will be wholly lacking. Call loans opened at eight per cent against yesterday's final quotation of twelve per cent.

## CHICAGO GRAIN

CHICAGO, March 30.—Approach of month-end settlements had a slightly bullish influence today on the corn market. Reports were also current that foreigners were buying a considerable amount of breadstuffs, including some corn flour. Owing to wire difficulties, however, trading was chiefly of a local character. Opening prices, which ranged from 1½c decline to ¾c advance, with May \$1.56 to \$1.58½ and July \$1.50, were followed by a slight sag and then by a moderate general upturn.

Oats were easier owing to progress in seeding. After opening ¼ to ¾c down to 1½c gain, including July at 78½ to 78¾c, the market hardened a trifle.

Absence of support allowed provisions to decline. Most of the business was in lard.

## FRENCH AGREE WITH PRESIDENT WILSON

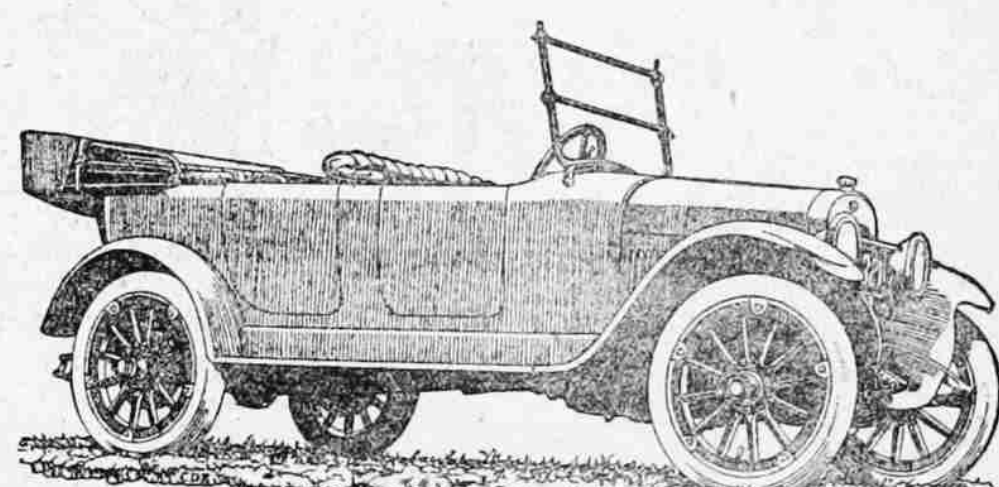

PARIS, March 30.—It was said at the foreign office today that the French point of view regarding Turkey and Armenia is in agreement with that of President Wilson as to the desirability of the largest possible Armenian state and the expulsion of the Turks from Constantinople. The question is raised, however, as to how these ends can be exchanged without the force necessary to deal with the trouble certain to result among the Mussulman population.

(President Wilson's note on the Turkish question was delivered to Premier Millerand by Ambassador Wallace during the session of the council of ambassadors in Paris yesterday.)

It would require a force of several hundred thousand men to back up a decision to eject the Turks entirely from Europe a high official said.

The establishment of an Armenian state of large dimensions also would involve the necessity of a military force to protect it, as in great portion of the new state the Armenians would be in the minority and exposed to the hatred of their enemies. This task, it was declared at the foreign office, always had been considered the great humanitarian task for President Wilson to perform. The question was, it was added, whether he was ready to furnish the required force.

Pound for pound the steels in a  
**MAXWELL**  
equal those in any car

THE tendency in cars today is to reduce weight, to cut out unnecessary pounds, to take those extra burdens off the power of an engine.

In a Maxwell there is hardly a superfluous pound. Like a great cross country runner, it carries no handicap in weight.

It is made of fine steels, and these steels have that magic combination that metallurgists strive for—light weight and extra strength.

These steels are made to order for Maxwell. They are treated in great furnaces, and they are strong beyond belief. Pound for pound, they equal the steels in any car built.

But they more than repay for their high cost. They wear. They stand terrific abuse. They defy time.

But their greatest task is to lighten the burden of the Maxwell engine, enable it to perform brilliantly, and make gasoline deliver extended mileage.

Thus you will understand that rise of Maxwell the world over, that ever growing friendship, that ever increasing demand.

Today nearly 400,000 in use. In 1920, 100,000 more. Still this will fill but 60% of the world's requirements for this remarkable car.
